

Teaching Benefits

Support services can become more specialized with an emphasis on early literacy for the younger children and deeper comprehension and problem solving for the older students

Benefits to Regionalization

- Increase Academic opportunities and program choices for students and parents
- Better balance with class sizes
- Transportation costs supplemented
- Lower operating and administrative costs
- More specialized support services
- Teaching benefits, including: larger grade level meetings, balancing of classes, stronger professional development, increased collaboration

HOLLAND / WALES REGIONALIZATION Informational Sessions

**Holland, April 8, 2010 7:00
Wales, April 14, 2010 6:30**

**Both sessions will take place
in the Elementary Schools**

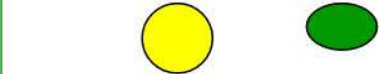

Early Learning Center Wales Elementary School

Create a state of the art
Pre-K through Grade 2 school

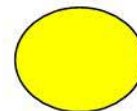

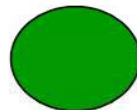

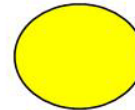

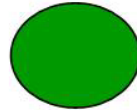

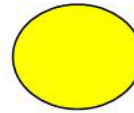

Expand the community out-
reach program for infants and
toddlers

Create an early learning center
in the current Wales
Elementary School that would
address the learning needs of
our Pre-K, Kindergarten, Grade
One and Grade Two students

Create small learning centers
that cater to the early learner.

Partner with Tantasqua
Senior High School's early
childhood program

Holland / Wales Intermediate School Holland Elementary School

Specialize in STEM (science,
technology, engineering and
math)

Offer specialized instructional
opportunities in science such
as robotics and expanded lab
science activities

Expand the instrumental and
choral programs

Specialize our approach to
offer support services

Ability to focus on the needs
of the intermediate students
through inquiry based projects
including Lego and Robotics

Better able to focus on the
needs of the intermediate
students
